

Birthday Board app

How sync Birthday Board
from Facebook

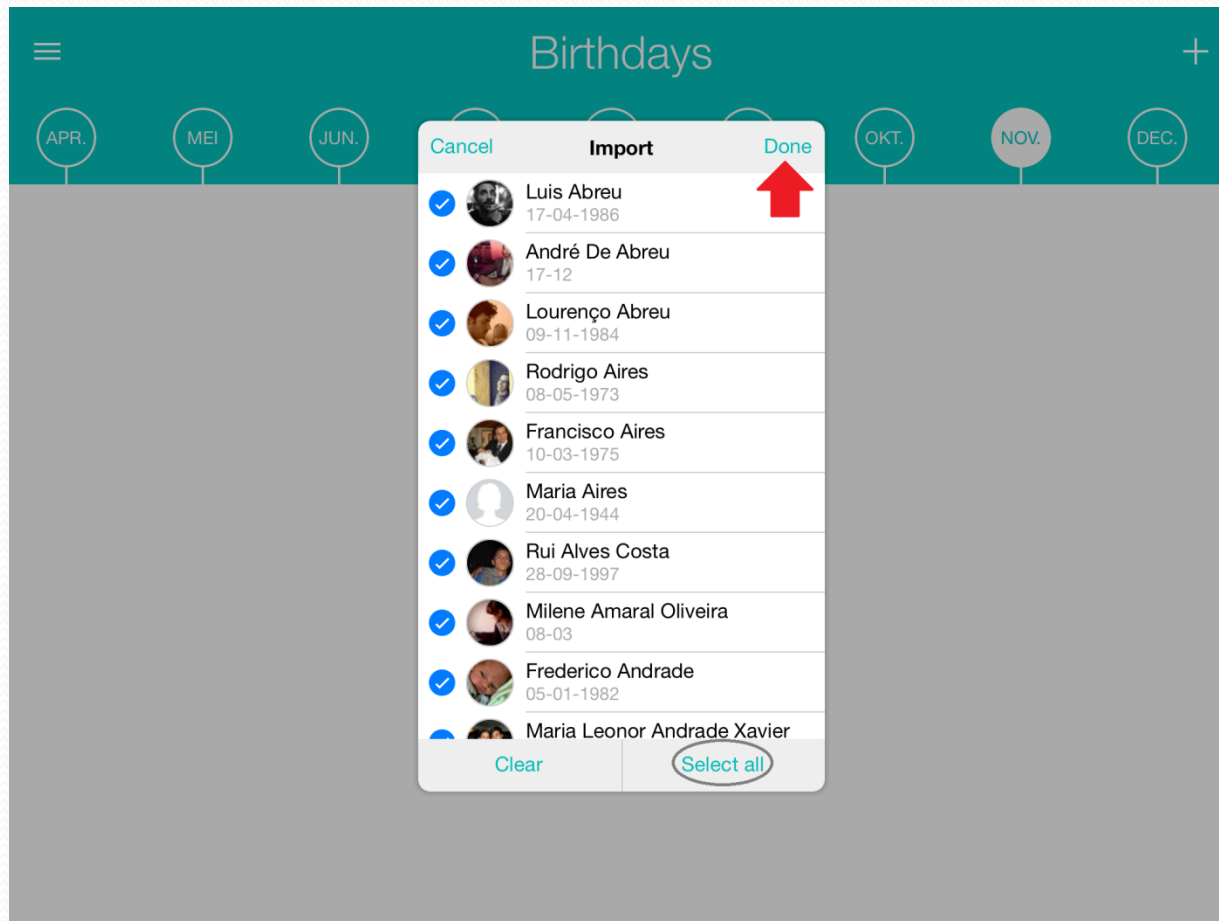

It is possible to sync the Birthday Board app with your Facebook account.

1- Open the BB app on your iPhone/iPad, click on the + button on the top.

2- Select the option, Import from Facebook

Select all the contacts you wish to import and click Done

After BB import all your contacts, your new board is ready.

Now you only need to select the theme you want for your Board
